Clamping system

A retractable vice system under the work bench enables centred clamping of the frame.

Work bench pneumatic tilting

By means of pneumatic footswitch, it is possible to place the bench in an inclined position from 0° (horizontal) to 12° to facilitate hardware assembly operations.

Automatic screwing unit

The screwing unit with automatic feed runs on horizontal guides.

Support surface in hard anti-friction PVC

The anti-friction hard PVC support surface ensures great smoothness of the frame allowing easy handling.
