

ITACA SOLUTION

Corner crimping
machines for aluminium
doors/windows

Crimping machine for closing corners of aluminium profiles for doors, windows and facades. The machine is controlled by an electronic system capable of storing, for each profile, the crimping coordinates. This information is required by the management system for the automatic positioning of the profile reference fork and crimping tools. The fork and tools position themselves automatically, simply by recalling the profile on which one must operate. The blades are universal, for all profiles, in the event a tool needs replacing the system notifies the operator.

ITACA SOLUTION / CORNER CRIMPING MACHINES FOR ALUMINIUM DOORS/WINDOWS

CHARACTERISTICS

Nominal pressure (bar)	7
------------------------	---

DIMENSION AND WEIGHT

Overall dimensions LxHxP (mm)	1.450 x 1.150 x 1.050
Weight (kg)	480

ACCESSORIES

Aluminium bracing clamp of 30 mm	1
Standard bracing clamp 20 mm	<input type="radio"/>
Special bracing clamp	<input type="radio"/>
Pair of standard knives, 3 mm	<input checked="" type="radio"/>
Pair of standard knives, 5 mm	<input type="radio"/>
Pair of standard knives, 8 mm	<input checked="" type="radio"/>
Pack knives set	<input type="radio"/>
Special knives set	<input type="radio"/>
Knives for Monticelli brackets	<input type="radio"/>
Support profiles	2
Support benches	<input type="radio"/>
