Partitioning

The carriage has doubled partitioning that allows high increase in the number of transportable workpieces and also considerable savings in terms of occupied space.

Contact surfaces

All side and lower contact surfaces are coated with soft nonslip PVC, which ensures the integrity of the surfaces in the housing stages.

Pivoting wheels

Equipped with 4 pivoting wheels with brakes, they ensure a high degree of mobility and easy handling of the object. Locking the braking units allows their position to be fixed near different work areas.
