

## *Transit YP*

Professional trolleys

Trolley designed for transportation and storage of glasses and panels in the assembly lines.

### Partitioning

The carriage has doubled partitioning that allows high increase in the number of transportable workpieces and also considerable savings in terms of occupied space.

### Contact surfaces

All side and lower contact surfaces are coated with soft nonslip PVC, which ensures the integrity of the surfaces in the housing stages.

### Pivoting wheels

Equipped with 4 pivoting wheels with brakes, they ensure a high degree of mobility and easy handling of the object. Locking the braking units allows their position to be fixed near different work areas.

**TRANSIT YP / PROFESSIONAL TROLLEYS****CHARACTERISTICS**

|  |               |
|--|---------------|
| Compartment depth (mm)                               | 999           |
| Base (mm)  | 1.240 x 1.010 |
| Vertical support, height (mm)                        | 1.305         |
| Number of compartments                               | 10 x 2        |
| Soft PVC contact surface                             | ●             |
| Wide supporting base                                 | ●             |
| Handle for moving                                    | ●             |
| 4 swivel casters, 2 of which have locking stops (mm) | Ø = 125       |
| Weight (kg)  | 85            |
| Load capacity (kg)                                   | 500           |
