**VIS digital reader** 

Digital display that allows reprogramming of machine 0, indicating the stop positioning dimension, which corresponds to the length of the workpiece to be cut.

Handwheel By means of the handwheel, the stop is brought into position.

**Reference stop** 

Carriage running on ball bushing actuated by mechanically controlled kinematics, which allows, referring to the centre of the blade, the realization of the length of the workpiece to be cut.

## MACHINE CHARACTERISTICS

Effective stroke (according to model) (mm)	3.780 ; 5.780
Positioning tolerance (mm)	± 0,5 (*)
(*) The machine does not have a thermal deformation compensation system. The reported information refers to a temperature of 20°C
