

WT 450

Professional trolleys

Trolley used at the end of the line as a single tool for storing the finished doors and windows in the factory and transporting them to the worksite.

**Preparation for lifting**

It allows it to be lifted easily by forklift as it is equipped with a fork housing. It also has hooks that ensure lifting by crane.

**Preparation for transport**

Very easily and quickly, the pivoting wheels with brakes can be removed so that the carriage can rest on its own rubber feet to ensure safe truck transport.

**Surface in nonslip PVC**

The working surfaces are covered with soft nonslip PVC that provides secure support when positioning the door.

**Pivoting wheels**

Equipped with 4 pivoting wheels, 2 of which with brakes, that ensure a high degree of mobility and easy handling of the object. Locking the braking units allows their position to be fixed near different work areas.

**WT 450 / PROFESSIONAL TROLLEYS****CHARACTERISTICS**

| | |
|--|-------------|
| Lifting and suspension hooks | ● |
| Modular structure base (mm) | 970 x 1.730 |
